

2021 (Vol. 22)

FOUNDERS:

"Ore & Metals" Publishing house
Nosov Magnitogorsk State Technical University

PUBLISHER:

"Ore & Metals" Publishing house

Established in 2006.

The "CIS Iron and Steel Review" journal is registered in the Russian Federal Service for Supervision of Communications, Information Technology, and Mass Media for Compliance with the Law in Mass Communications and Cultural Heritage Protection (Certificate PI No. FS77-73962 dated 19.10.2018)

Trade mark and the title "CIS Iron and Steel Review" are exclusively property of "Ore and Metals" Publishing House

The official information edition of the Federal Curricular Union "Technologies of Materials"

EDITORIAL BOARD

Chief editor: **Tsirulnikov Evgeny**

Deputy Chief Editors: **Kosyrev Konstantin, Vorobiev Alexandr**

Members of Editorial Board: Belenky Anatoly (Russia), Bleck Wolfgang (Germany), Boriskin Oleg (Russia), Chichenev Nikolay (Russia), Chukin Mikhail (Russia), Dashevskiy Viktor (Russia), Elanskiy Dmitriy (Russia), Galkin Sergey (Russia), Goli-Oglu Evgeny (Denmark), Gordon Yakov (Canada), Illarionov Ilya (Russia), Ivashchenko Valeriy (Ukraine), Kaputkina Lyudmila (Russia), Kazakov Alexandr (Russia), Kolikov Alexandr (Russia), Kolokoltsev Valeriy (Russia), Korchunov Alexey (Russia), Kushnarev Alexey (Russia), Leushin Igor (Russia), Mazur Igor (Russia), Savenok Anatoliy (Belarus), Scheller Piotr (Germany), Sultanguzin Ildar (Russia), Tkachenko Stanislav (Russia), Travyanov Andrey (Russia), Volynkina Ekaterina (Russia), Vydrin Alexandr (Russia), Zyuban Nikolay (Russia)

EDITORIAL STAFF

Responsible Secretary: **Rakhmanova Elena**

EDITORIAL ADDRESS

Actual address: Moscow, Leninskiy prospekt 6, bld. 2, office 617

Mailing address: P.O. Box No. 71, Moscow, 119049, Russia

Phone/fax: +7-495-638-4518, +7-495-955-0175

E-mail: chermet@rudmet.ru; tsirulnikov@rudmet.ru

Web-site: www.rudmet.ru

Computer design and make-up by Oksana Chigrina

Volume: 14.5 printer's sheets (116 pages)

Printed: 11.01.2022 by "Kancler" Printing house

Circulation: 250 copies. Open price

IN SCOPUS SINCE 2014!

In 2014, the journal "CIS Iron and Steel Review" was included into the international bibliographic and abstract database Scopus, which is an instrument for tracking of scientific articles' citedness.

The Ministry of education and science of Russian Federation considers the Scopus database as a criterion of estimation of efficiency of activity of higher education institutes. The journal "CIS Iron and Steel Review" is located in the first quartile (Q1) of Scopus (Scimago version) since 2017.

CONTENTS**Raw Materials**

- M. I. Dli, V. I. Bobkov, N. S. Kulyasov, A. M. Sokolov.* Features of research of iron ore thermal decarbonization kinetics during roasting. 4

Casting and Foundry

- V. A. Gulevskiy, S. N. Tsurikhin, V. V. Gulevskiy, N. Yu. Miroshekin.* Research of modification influence on cracking resistance of cast iron in moulds 9

Continuous Casting

- A. N. Shapovalov, R. R. Dema, R. N. Amirov, O. R. Latypov.* Improvement of the secondary cooling mode for continuous casting of round billets at Ural Steel JSC 15

Metal Forming

- V. F. Danenko, L. M. Gurevich.* On calculation of stress-strain state of steel closed ropes in extension and twisting. Part 1. Determination of generalized stiffness and deformation coefficients 20

Metallurgical Equipment

- S. M. Bratan, S. I. Roshchupkin, A. O. Kharchenko, S. V. Belousov.* Quality improvement of manufacturing rolling mill rolls 26

Tubemaking

- S. V. Samusev, V. A. Fadeev, A. S. Budnikov, M. B. Savonkin.* Calculation and experimental technique for evaluating the parameters of the contact interaction of a strip billet with a roll tool in the ERW mill lines 32

Hot Stamping

- N. A. Chichenev, O. N. Chicheneva, A. O. Karfidov, A. N. Pashkov.* Selection of laser processing parameters for hot stamping tools based on mathematical planning of the experiment 37

Metal Science and Metallography

- A. A. Kazakov, V. A. Murysev, D. V. Kiselev.* Non-metallic inclusions interpretation technique for factory expertise of metal product defects 41
- M. V. Dudorov, A. D. Drozin, A. V. Stryukov, V. E. Roshchin.* Variational theory of crystal growth and its application for analysis of forming processes for metastable phases in overcooled metallic melts with eutectic composition 48
- V. M. Kolokoltsev, E. V. Petrochenko, O. S. Molochkova.* Influence of aluminium and niobium alloying on phase composition, structure and properties of heat- and wear-resistant cast iron of Cr-Mn-Ni-Ti system 55
- P. P. Polteskov, I. L. Yakovleva, A. S. Kuznetsova, N. V. Koptseva, O. A. Nikitenko.* Study of structure of high-strength cold-resistant steel after quenching and tempering 61
- A. E. Balanovskiy, N. A. Astafyeva, V. V. Kondratyev, A. I. Karlina.* Study of mechanical properties of C-Mn-Si composition metal after wire-arc additive manufacturing (WAAM) 66
- V. E. Gromov, Yu. F. Ivanov, S. V. Konovalov, K. A. Osintsev.* Effect of electron beam treatment on the structure and properties of AlCoCrFeNi high-entropy alloy 72
- I. V. Ushakov, I. S. Safronov.* Directed changing properties of amorphous and nanostructured metal alloys with help of nanosecond laser impulses 77

Powder Metallurgy

- P. A. Loginov, E. N. Avdeenko, A. A. Zaitsev, E. A. Levashov.* Structure and properties of powder alloys Fe-(45-15)%Ni-(10-5)%Cu, obtained via mechanical alloying 82
- E. V. Ageev, E. V. Ageeva, S. V. Khardikov.* Structure and properties of sintered corrosion-resistant steel manufactured from electroerosive powders 88
